www.rarediseaseday.org

First Rare Disease Day in the United States

2009 year is the first time for Rare Disease Day to be observed in the U.S.A. The National Organization for Rare Disorders (**NORD**) mobilised partners from patient organisations, government agencies, medical societies, and companies developing orphan products. Over **220 patient organisations, agencies and companies signed on**, including two government offices that are instrumental in rare diseases and orphan products in the US: the **NIH** Office of Rare Diseases and the **FDA** Office of Orphan Products Development.

Pacto de Todos por las ER.pdf (application/pdf Object) - Mozilla Firefox

http://www.feder.org.es/pam/zipach/Res/Pacto%20de%20Todos%20por%20las%20ER.pdf

Por un PACTO DE TODOS por las ENFERMEDADES RARAS

Las Enfermedades Raras (ER) plantean un reto de salud pública que requiere una acción urgente, porque sólo su reconocimiento y su visibilidad nos ayudarán a salvar vidas. No existe otro campo en el sector sanitario en el que la solidaridad nacional y europea tenga mayor valor añadido que en las ER.

Queremos que las ER dejen de ser la causa del 35% de las muertes de niños menores de 1 año.

Queremos, sobre todo, mejorar la esperanza y calidad de vida de todos los niños, jóvenes y adultos que sufren el dramático impacto de una ER en sus vidas.

PACTO POR LAS ER PARA:

- Buscar el **compromiso político definitivo** para impulsar una estrategia global "multisectorial" que permita que los enfermos alcancen una verdadera integración sanitaria, social, educativa y laboral.
- Asegurar la **equidad, justicia y solidaridad** con los niños, jóvenes y adultos afectados por ER.
- **Garantizar el acceso en condiciones de equidad** al diagnóstico, el tratamiento y la rehabilitación de los pacientes, sin importar la rareza de su enfermedad o su lugar de residencia.

PACTO PARA DAR APOYO A:

- Los **3 millones** de afectados por ER en España.
- **Todas las familias que luchan en la invisibilidad, el aislamiento y el dolor** y que observan con demasiada frecuencia como se olvida su derecho a la salud y a otros derechos fundamentales por la rareza de su enfermedad.
- **Todas las personas que, sin diagnóstico o con sospecha de él, viven sumidas en la desesperanza, en el miedo y en la angustia** que supone una ER.
- **Todos aquellos que viven el dolor de haber perdido a un ser querido.**
- **Las nuevas generaciones**, para que encuentren un mundo más preparado para integrarles de una manera justa.

PETICIONES DEL PACTO:

1. **Impulsar la creación de la Organización Estatal de Enfermedades Raras** como el órgano que coordine la estrategia y todas las actuaciones relativas a las ER.
2. **Poser en marcha el Plan de Acción para las ER** identificando claramente: sus plazos de ejecución, sus responsables y su presupuesto financiero.
3. **Hacer cumplir por parte del Estado Español y las CCAA** su compromiso común por garantizar la equidad en el acceso universal a una atención sanitaria de alta calidad, de manera justa y solidaria para todos los enfermos de ER, sin importar su lugar de residencia.
4. **Impulsar de forma prioritaria los centros especializados de referencia para ER.**
5. **Conseguir el consenso y compromiso de los principales actores:** Administración Nacional, Autonómicas, Sociedades Científicas, Colegios Profesionales, Industria, Organizaciones de Pacientes, Medios y Sociedad Civil; para que el éxito del Pacto se traduzca en medidas concretas para los afectados.
6. **Apoyar la participación de los pacientes** en la elaboración de políticas y toma de decisiones.

El Pacto de Todos por las Enfermedades Raras (EDER) fue promovido por el Ministerio de la Presidencia y Sanidad, Sector Oficinas de Cooperación con el Ministerio de Sanidad y Consumo.

RDD creating momentum to : push for National Plans and Strategies

- Event organised by the Belgian Alliance on Feb 27 at the **Belgian Parliament** where they obtained a commitment by the Ministry of Health to contribute to a **RD Fund** which will work amongst other areas on a **National Plan for RD in Belgium**.

- At a Conference entitled '**Focus on Rare Disease in Ireland – What is our National Plan?**' the Irish Alliance obtained a **commitment from the Ministry of Health to work on a National Plan**. An Irish senator and candidate to the European Parliament attended.

Rare Disease Day
28 February 2009

www.rarediseaseday.org

RDD creating momentum to :

push for Centres of Expertise

- **Danish MEP visit Centre for Rare Disorders at Aarhus University Hospital**, Skejby in Denmark. The purpose with the visit was to introduce Britta Thomsen (S) to the daily work with patients with rare diseases as well as to discuss why rare diseases are a very important focus area in the EU.

Rare Disease Day
28 February 2009

www.rarediseaseday.org

RDD creating momentum to :

build emerging national alliances

- In **Switzerland**, following RDDDay, the organisations involved met in March to discuss the possibility of forming an Alliance Maladies Rares.
- In **Australia** first RDD event . A seminar was held in Sydney to discuss the situation of rare diseases in Australia . This event was the launching pad for the creation of a group with a united voice for a national approach for rare diseases.

Rare Disease Day
28 February 2009

www.rarediseaseday.org

RDD has played an essential role in:

- (a) promoting RDs as a **public health priority**
- (b) promoting the development of **national strategies** on rare diseases
- (c) creating a favourable environment for adoption of the **Council Recommendation** on RDs
- (d) promoting **centres of expertise**
- (e) raising media and public **visibility of national alliances** and partners
