STATUTORY AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

Year ended December 31, 2012

EURORDIS

Association governed by the French law of July 1, 1901

96, Rue Didot
75014 PARIS

STATUTORY AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

Year ended December 31, 2012

In compliance with the assignment entrusted to us by the Members' meeting, we hereby report to you, for the year ended December 31, 2012, on :

- the audit of the accompanying financial statements of the EURORDIS Association,
- the justification of our assessments,
- the specific procedures and disclosures required by law.

These financial statements have been approved by the Association's Board of Directors. Our role is to express an opinion on these financial statements, based on our audit.

I. Opinion on the financial statements

We conducted our audit in accordance with professional practice standards applicable in France. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, using sample testing techniques or other selection methods, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made, as well as evaluating the overall financial statement presentation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

In our opinion, the financial statements give a true and fair view of the EURORDIS Association's financial position and its assets and liabilities as of December 31, 2012 and the results of its operations for the year then ended in accordance with French accounting regulations.

II. Justification of assessments

Pursuant to the provisions of Article L.823-9 of the French Commercial Code on the justification of our assessments, we hereby inform you that our assessments covered the accounting policies implemented by your Association. We have verified the appropriateness of these accounting policies and the disclosures in the Notes.

The assessments on these matters were performed in the context of our audit approach for the financial statements taken as a whole, and therefore contributed to the opinion we expressed in the first part of this report.

III. Specific procedures and disclosures

We have also performed the other procedures required by law in accordance with professional standards applicable in France.

We have no comment to make as to the fair presentation and consistency with the financial statements of the information given in the Board of Directors' management report and in the documents addressed to the Members with respect to the financial position and the financial statements.

Neuilly-sur-Seine, March 15, 2013

The Statutory Auditor

Deloitte & Associés

Philippe GUAY

(1) covering travel/accommodation costs for EMA meetings

Introduction

In 2012, two big events – the European Conference on Rare Diseases and the EURORDIS Black Pearl Gala Dinner – in addition to the signature of several pluriannual projects – EUCERD Joint Action, EUPATI, RD-Connect – had a significant impact both on “assets and liabilities” (+51%) and “revenue and expenses” (+25%) accounts.

The funding scheme of these two events was totally new for EURORDIS and the risk was properly managed. It resulted in a growth of the reserves by 11% - a net surplus of EUR 62 404 after provisions that we propose to allocate to the reserves.

A contract loss accrual was constituted to cover the loss on the continuation of the EUROPLAN project where no co-funding could be raised.

1. Assets and Liabilities

1.1. Assets

Current assets increased from 2 245 k€ to 3 445 k€.

	2011	2012	Difference	
Accounts receivable	1 227	1 948	721	+59%
Liquid assets	904	1 389	484	+54%
Prepaid expenses	113	108	-5	-5%
Total current assets	2 245	3 445	1 200	+53%

All figures in thousand of euro

1.1.1. Account receivables

Accounts receivable are monies to be received from grants when an agreement has been signed and the cash has not been transferred yet.

Four new EC pluri-annual projects were signed in 2012, hence the increase of this line:

- EUCERD Joint Action: Working for Rare Diseases, 42 months
- EUPATI European Patient's Academy on Therapeutic Innovation, 60 months
- ECRIN IA European Clinical Research Infrastructure Network, 48 months
- RD-CONNECT An integrated platform connecting databases, registries, biobanks and clinical bioinformatics for rare disease research, 72 months

The bulk of this line comes from the European Commission (1 721 k€, 88%) and co-funders (175 k€, 9%) of EC project.

1.1.2. Liquid assets

The increase of liquid assets mainly comes from the first instalment of the above mentioned projects.

1.1.3. Prepaid expenses

Advance payments were made for the booking of the EURORDIS Membership Meeting 2013 Dubrovnik and the EURORDIS Black Pearl Gala Dinner 2013 venue.

1.2. Liabilities

1.2.1. Association funds

The overall association funds increased from 571 k€ to 633 k€, signifying an 11% rise.

1.2.2. Provisions

In 2012, the main risk lies in the completion of the funding of activities around national plans in the context of the EUCERD Joint Action WP4.

This work package is the continuation of the EUROPLAN project, held in 2009, and for which we did not succeed in finding donors to co-fund the action. At the closing of 2012's accounts, we have not succeeded in co-funding its continuation in the context of EUCERD Joint Action.

We still hope we will succeed in co-funding this activity but in order to be cautious, we have provisioned a contract loss accrual.

	2011	2012		
		Recoveries	New provisions	Balance
Provisions on ongoing contracts	29 061	-2 917	0	26 144
Forecasted loss on EUCERD Joint Action	0	0	135 786	135 786
Provisions for risk and charges	29 061	-2 917	135 786	161 930

All figures in euro

1.2.3. Trade creditors

2011	139 k€	6%
2012	120 k€	3%
difference	- 19 k€	-2%

Trade creditors are monies to be paid to suppliers for invoices that have been received (or to be received) and not paid yet. The situation at the end of 2012 is average.

1.2.4. Deferred income

2011	1 372 k€	59%
2012	2 361 k€	67%
difference	+ 989 k€	+72%

Deferred income refers to the part of grants concerning the incoming years (the part of the grant that has not been consumed yet).

In 2012, this is mainly composed of the above mentioned pluri-annual EC projects (2 140 k€, 91%) and correlated co-funding (108 k€, 5%).

2. Revenue

The revenue including in-kind contributions and excluding recovery of provisions amounted to 4 038 k€. This represents an increase of 31% compared to 2011.

This increase comes from different factors

- the creation of the Gala Dinner (+319 k€ - Corporates line)
- the organisation of ECRD2012 (+235 k€ on event fees)
- the increase of volunteers' work (+170 k€)

The breakdown of EURORDIS' revenue by sources is as follows

(amounts are in thousands of euros, recovery of provisions are excluded¹)

Source of funding	2011		2012		Difference
AFM	860	28%	887	22%	27
Membership fees and grants	33	1%	33	1%	-1
Volunteers	419	14%	589	15%	170
Patient Org. and Volunteers	1 312	42%	1 508	37%	196
European Commission	815	26%	927	23%	112
National authorities	72	2%	27	1%	-45
Pharma. and Biotech Companies	691	22%	987	24%	297
Other Health Sector Corporates	0	0%	23	1%	23
Health Sector Corporates	691	22%	1 010	25%	319
Other Corporates	0	0%	69	2%	69
Foundations and NPOs	144	5%	176	4%	32
Event fees	21	1%	275	7%	262
Others	40	1%	46	1%	-1
Total	3 094	100%	4 038	100%	944
					31%

Overall: 37% of resources are contributed by our members and volunteers, 25% by Health Sector Corporates, 24% from European Commission and Member States, 7% from event fees and 7% from other private resources.

The proportion of funding by source fully complies with our Policy on Financial Support by Commercial Companies²: the level of revenues from Health Sector Corporates represents 25% and is contributed by 40 different companies. It does not exceed the amount of revenues from Patient Organisations and volunteers (37%).

¹ Recovery of provisions is excluded from this table in order to better analyse the evolution of the revenue by the source of funding. For more information, please see 1.2.2. Provisions above.

² for more details on policy and financial structure, see www.eurodis.org

More details on revenues:

2.1. Patient Organisations and Volunteers

2011	1 312 k€	42%
2012	1 508 k€	37%
difference	+196 k€	+15%

This increase is mainly due to our volunteers who increased their participation in advocacy activities. Also, the financial evaluation of our new office space kindly offered by AFM-Téléthon has been recalculated to take into account a proportional fraction of the space shared by the 6 entities of the platform.

2.1.1. Association Française contre les Myopathies (AFM – Téléthon)

2011	860 k€	28%
2012	887 k€	22%
difference	+ 27 k€	+ 3%

AFM-Téléthon is EURORDIS' largest donor. Thanks to this grant, we are able to maintain the independence of EURORDIS for its core activities while using this financial support as leverage to develop and diversify our sources of revenue.

This grant is in the framework of the 2011-2013 AFM/EURORDIS agreement. It specifies that the purpose of the grant is focused on core operations (governance, membership, advocacy, therapeutic development, management) to guarantee our independence with respect to public institutions and commercial companies.

In 2012, the grant amounted to 705 k€ to partially compensate the departure of our seconded staff member, Fabrizia Bignami, PhD.

In addition to the money granted, the AFM provides us with the office space for the staff in Paris in the Rare Disease Platform.

2.1.2. Volunteers

2011	419 k€	14%
2012	589 k€	15%
Difference	+170 k€	+40%

The growing dedication of our volunteers is recurrent and even more impressive than last year. Altogether, their participation was greater than 5 full time equivalents (fte), which means that EURORDIS would have had to recruit 5.7 full time positions from the start of 2012 to keep the same level of representation at EU level.

Moreover, volunteers are an irreplaceable way of communicating our enthusiasm, thanks to their diversity of experience, skills and background.

They mainly work on matters pertaining to Public Affairs (2.8 fte) and Orphan Drugs (1.6 fte).

Time spent by volunteers is validated by the volunteer him/herself (92.8%) or estimated by project managers. The overall process is validated by our auditors.

2.2. European Commission

2011	815 k€	26%
2012	927 k€	23%
Difference	+112 k€	+14%

In addition to the new EC Grants already described in 2011's financial report (EUCERD Joint Action, EUPATI, ECRIN), EURORDIS started a new project in 2012: RD-Connect. This 6 years DG Research project will work at improving the connection between the different clinical datasets such as registries, biobanks, -omics, etc. EURORDIS will be the interface between patient organisations and academics. This project allowed us to recruit one dedicated staff member.

2.3. National authorities

2011	72 k€	2%
2012	27 k€	1%
Difference	- 45 k€	- 62%

Now that François Faurisson, MD, Clinical Research Advisor, from INSERM has left, this line is mainly focused on co-funding of the EUCERD Joint Action by the "Caisse Nationale de Solidarité pour l'Autonomie" (25 k€ per year for 3 years).

2.4. Health Sector Corporates

2011	691 k€	22%
2012	1 010 k€	25%
Difference	319 k€	+ 46%

This heading comprises 38 pharmaceutical companies and two health sector consulting firms.

The bulk of the increase comes from the Gala Dinner. Also, our Round Table of Companies is regularly increasing: it increased from 315 k€ in 2011 to 340 k€ in 2012 (+25 k€).

Other pharmaceutical companies' support consists of co-funding of projects (Epirare), supporting the EURORDIS Membership Meeting and the RareConnect™ project (Online Patient Communities).

The five largest donors are GSK, CELGENE, ALEXION, BAYER and PFIZER. The percentage of each company in the overall budget comprises between 0.06% and 2.39%.

The two guarantees of our independence are (1) the limitation of the overall amount compared to income of Patient Organisation provenance and (2) the diversity and limited impact of each single donor.

2.5. Other Corporates

2011	0 k€	0%
2012	69 k€	2%
difference	69 k€	NA

For the first time, in 2012, EURORDIS succeeded in raising funds from one corporate that is not exclusively dedicated to the health sector and also had the positive surprise of receiving two wonderful videos for Rare Disease Day 2012 and 2013. These gifts amounted to 50 k€.

In addition, we received a very advantageous price for the renting of our office space in Brussels because Multiburo wanted to support EURORDIS' mission. This special price allowed us to save 6 k€ in 2012.

2.6. Foundations and Not for Profit Organisations (NPOs)

2011	144 k€	5%
2012	176 k€	4%
difference	32 k€	22%

All NPOs that provided funds to EURORDIS come from the Health Sector but they are not Pharmaceutical Companies' foundations.

They comprise Pharmaceutical Syndicates such as the LeeM (French), AIPM (Russian) and EFPIA (European) – EFPIA contributed through the EUPATI project which is a Joint Undertaking between DG Research and EFPIA; one medical devices foundation, the Medtronic foundation and one family foundation, EveryLife Foundation which belongs to Mr Kakkis, MD, PhD, CEO and President of Ultragenyx pharmaceutical.

Also, the Fundació Doctor Robert kindly provided us with the office space in Barcelona in the same way that the AFM does in Paris, for an estimated amount of 8 k€.

2.7. Event's fees

2011	21 k€	1%
2012	275 k€	7%
difference	254 k€	N/A

To be able to organise a 6th European Conference on Rare Diseases with a contribution of the European Commission constricted at 100 k€, EURORDIS partnered with the Drug Information Association (DIA). This partnership allowed us to increase the participation fees to 235 k€.

The rest mainly consists of EURORDIS Black Pearl Gala Dinner seats (34 k€).

3. Expenses

The operating expenses, including in-kind contributions and excluding provisions, amounted to 3 843 k€, which shows an increase of 22% compared to 2011.

The breakdown of EURORDIS' expenses is as follows
(in thousands of euros, provisions excluded³)

Expenses	2011	2012	Difference
Staff costs	1 579	1 709	131
Volunteers	419	589	170
Travel and subsistence	321	403	82
Services	687	1 026	339
Purchase	135	101	-34
Financial and insurance expenses	7	15	8
Total	3 148	3 843	695
	100%	100%	+22%

All figures in thousand of euro

The increase is due to

- ECRD2012 related costs
- Increase of volunteers
- Start of new projects

More details on expenses:

3.1. Staff costs

2011	1 579 k€	50%
2012	1 709 k€	44%
difference	+ 131 k€	+ 8%

The number of FTE⁴ was 23.7 in 2012, thus an increase of 0.8 FTE (+ 4%).

This increase results from plus and minus: On the one hand we have, in 2012, the departure of two seconded staff members (Fabrizia Bignami, PhD from AFM and François Faurisson, MD from Inserm) and the creation of five new positions (in order of contractual start):

1. Social Policy & Specialised Social Services Manager, Raquel Castro
2. Deputy to the Chief Executive Officer, Zoe Alahouzou
3. Training Manager, Nancy Hamilton
4. RareConnect™ Junior Manager, Marta Campabadal
5. Resource Development Director, Jill Bonjean (replaced by Minna Granger)

Altogether, at the end of the year, we were 21 staff members in France, one staff member in Belgium, one full time consultant in Belgium, three full time staff members in Spain and one office volunteer. Hence an overall total of 27 staff members.

³ Recovery of provisions is excluded from this table in order to better analyse the evolution of the revenue by the source of funding. For more information, please see 1.2.2. Provisions above.

⁴ 1 full time equivalent = 1 people on a full time position during one year

3.2. Travel and subsistence

2011	321 k€	10%
2012	403 k€	10%
difference	+82 k€	+26%

ECRD2012, including fellowships, and the start of the EUCERD Joint Action with its workshops, are the cause of this increase.

3.3. Services

2011	687 k€	22%
2012	1 026 k€	27%
difference	+339 k€	+49%

Our two major events – ECRD2012 (+245 k€) and the Gala Diner (+49 k€) – are, together with the creation of two in kind videos in the context of Rare Disease Day 2012 and 2013 (+50 k€), the cause of this increase.

4. Result

The 2012 surplus amounted to EUR 62 404 and we suggest to allocate it to the reserve.

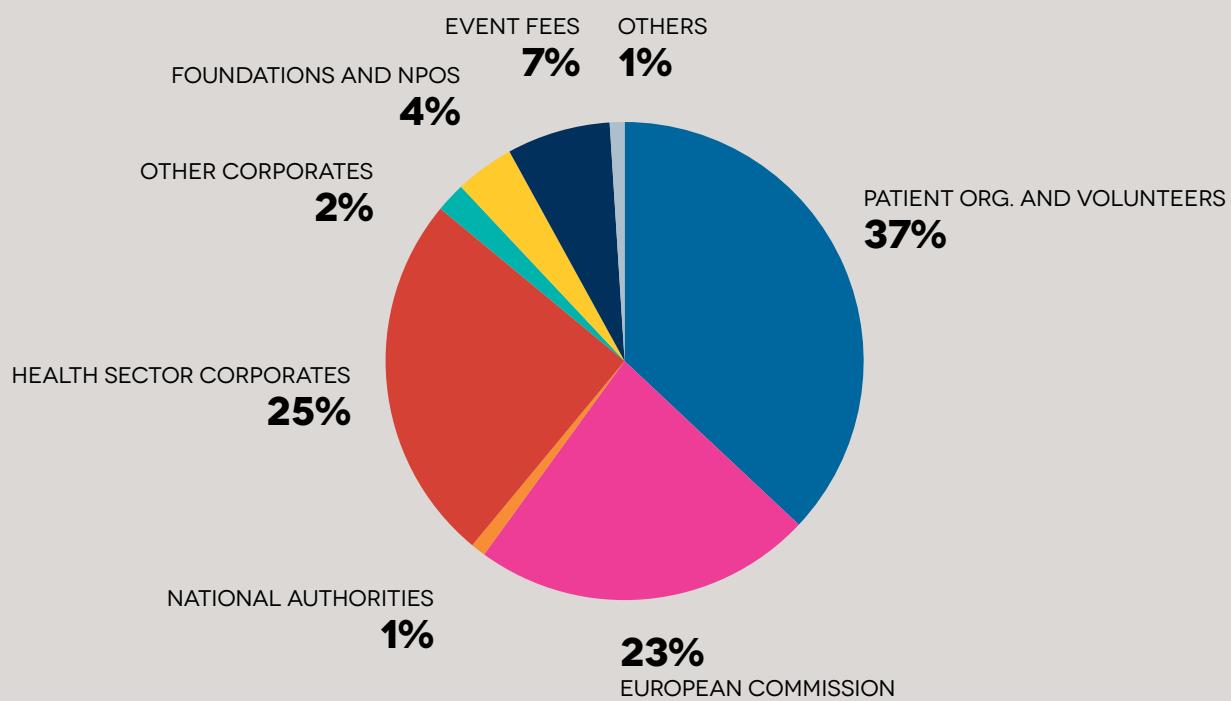

The reserve fund would then be increased by EUR 62 404 to EUR 633 193, which will represent approximately 3 months of low-level activity.
